

QUIMIBERICA, S.A.

BROOK'S SAE 5W30 ENERGY 2

TECHNICAL INFORMATION

DESCRIPTION AND APPLICATION

LOW SAPS synthetic lubricant specially designed for PEUGEOT and CITROËN petrol and diesel engines. Its high technology favours the reduction of fuel consumption (**FUEL ECONOMY**) and optimises the operation of particulate filters (FAP).

PROPERTIES

- Its detergent and dispersant additives ensure optimum protection against wear, keeping the engine clean and avoiding the formation of sludge and deposits produced by soot at high temperatures.
- It is a special fuel-saving lubricant, suitable for both new and old generation diesel engines, as well as for most gasoline engines. This fuel saving contributes to the reduction of CO2 emissions into the atmosphere.
- Due to its low ash content, it favors the operation of anti-pollution post-treatment systems, especially particle filters (FAP/DPF).

TYPE ANALYSIS

PARAMETERS	UNITS	VALUE
Density at 15°C	g/cm ³	0,853
Viscosity at 100°C	cSt	9,3-12,5
Viscosity index	-	151
Flash point	°C	235
Pour point	°C	-36

The characteristics mentioned represent typical values.

SPECIFICATIONS

ACEA C2
PSA B71 2290

FIAT 9.55535.S1

STORAGE CONDITIONS AND EXPIRATION

The product does not require special storage measures.

As general storage conditions, heat sources, radiation, electricity and contact with food should be avoided.

Store closed containers between 5 and 35°C, in a dry and well-ventilated place.

Best before date: 2 years
