WINDSHIELD WASHER

BROOK'S

TECHNICAL INFORMATION

DESCRIPTION AND APPLICATION

WINDSHIELD WASHER is a liquid product for direct use for cleaning and degreasing vehicle windshields.

PROPERTIES

- It delays the adhesion of dust and impurities, easily dissolves fats and oils, eliminates insects and organic remains embedded in the windshield and facilitates the subsequent function of the wiper arm, smoothing its slide, providing excellent vision.
- It contains antifreeze that guarantees its use in winter at low temperatures, while it can act as a windshield defroster.
- It contains surfactants with great detergent power that eliminate fats, oils, etc.
- Extraordinary cleaning power is obtained thanks to its low viscosity and surface tension, allowing excellent vision.

TYPE ANALYSIS

PARAMETERS	UNITS	VALUE
Aspect	-	translucent liquid
Color	-	Blue
Density at 20°C	g/cc	0,992
Freezing point	°C	-9°
pH	-	6-8

The characteristics mentioned represent typical values.

HOW TO USE

Empty the contents of the container into the windshield washer reservoir.

STORAGE CONDITIONS AND EXPIRATION

Store containers between 5 and 35 °C, in a dry and well-ventilated place, away from heat sources and direct sunlight. Keep away from ignition points. Keep away from oxidizing agents and strongly acidic or alkaline materials. As general storage conditions, sources of heat, radiation, electricity and contact with food should be avoided.

Best before date: 2 years.
